Sika® FastFix-131

EASY JOINTING

WEED-RESISTANT JOINTING COMPOUND

Sika® Fastfix-131 is an easy to use moisture curing jointing compound for all types of paving incl. driveways with light traffic.

USES:

- For joints 2-12 mm wide (min. 25 mm deep)
- For use on all block paving – new and existing
- Ideal for driveways, footpaths, walkways and patios

PRODUCT INFORMATION

Pack size: 20 kg bag

Color: Buff

Please note that this is not the exact color.

Coverage approximately 15 m² 200 x 100 mm paving
(10 x 60 mm joints)

The above figures show the coverage for a 20 kg bag being used.

APPLICATION

PREPARATION

Ensure joints are dry and free from dirt, debris and weeds.

TOOLS

APPLICATION
COULD NOT BE
SIMPLER

APPLICATION

1. Pour out small amounts of Sika® FastFix-131.

2. Sweep into the joints.

3. Compact well into the joints using a vibratory plate, or simply use a wood plank and hammer.

4. Saturate the joints with water using a hose or watering can.
