What We Stand For
Building Trust

WHO WE ARE

Sika is a specialty chemicals company with a globally leading position in the development and production of systems and products for bonding, sealing, damping, reinforcing, and protection in the building sector and the industry.

For more than a century, we have focused on the quality of our products while constantly bringing a spirit of reinvention to the industry. We are committed to delivering reliable, innovative, and long-lasting solutions to our customers in the construction, building, and manufacturing industries.

This truly represents the value and impact of the full range of Sika's core competencies: sealing, bonding, damping, reinforcing, and protecting.

We provide innovative products that add significant value, plus comprehensive services, expertise, training, and custom-designed solutions.

OUR VALUES & PRINCIPLES

The future success of Sika is not only dependent on pursuing the right strategy, but is just as much based on the trust and dedication of all employees. The Sika journey to global leadership is founded on the company's entrepreneurial philosophy and the Sika Spirit.

The Sika Spirit is a synonym of the strong set of values and principles which makes up the DNA of the company. Five management principles express the corporate culture and are the foundation of future success:

- Customer First
- Courage For Innovation
- Sustainability & Integrity
- Empowerment & Respect
- Manage For Results

COURAGE FOR INNOVATION

Sika's long history of innovation has led to unparalleled success in becoming a global technology leader. The company nurtures and develops an international network of scientists, partners, suppliers, and customers. We provide intelligent solutions using the most advanced technologies, service, and unique expertise.

Global Cooperation

Sika's worldwide network of 18 Global Technology Centers take the lead in long-term research programs and the development of new innovative solutions. To meet local markets specific needs and requirements, new products and systems are also developed across the various regional and local technology centers worldwide.

ENABLER OF SUSTAINABILITY

Sustainability is an important component of the company's innovation strategy and a clear focus in product development. The ambition of Sika product engineers is to extend the service life of buildings and industrial applications in order to reduce maintenance effort, to improve energy and material efficiency, and to further enhance user-friendliness and health and safety profiles.

Solutions To Drive A Sustainable Future

✓ Durability

By increasing the lifespan of buildings, Sika solutions contribute to carbon footprint reduction.

🚚 Clinker Reduction

Sika solutions enable high clinker reduction in cement and concrete, even when using more challenging supplementary cementitious materials. Ensuring high performance and less environmental impact.

🏠 Roofing

Sika's wide range of durable and long-lasting roofing solutions contribute to the reduction of energy consumption and greening of cities.

MORE PERFORMANCE MORE SUSTAINABLE

OUR SOLUTIONS

HIGH PERFORMANCE CONCRETE SOLUTION

WHAT WE DO

Sika develops and markets a complete range of admixtures and additives for use in concrete and cement production. These products enhance the workability, strength and durability of concrete and enable the use of blended cement. Sika's admixtures and additives enable the concrete and cement industry to meet their sustainability targets. Sika's digital tools support the design of resource efficient and cost optimized concrete and consistently high concrete quality.

MAIN APPLICATION AREAS

- Ready Mix Concrete Companies
- Precast Element Manufacturers
- Infrastructure Projects
- Mining Industry
- Cement Industry
- 3D Concrete Printing Companies
- Dry Mortar Plants
- Gypsum Board Production
- Concrete Recycling Plants

LONG LASTING WATERPROOFING SOLUTION

WHAT WE DO

Sika's solutions for waterproofing cover all technologies used for below, and above-ground waterproofing: flexible membrane systems (polymeric sheets, fully bonded membranes, modified bitumen sheets), liquid applied membranes, joint waterproofing systems (waterstops, swelling profiles, adhered tapes), waterproofing mortars, mortar admixtures, and injection resins and grouts.

MAIN APPLICATION AREAS

Basements and Podiums

Wet Rooms

Tunnels and Station Boxes

Bridge Decks

Water and Wastewater Tanks

Pits and Reservoirs

Swimming Pools

TRUSTED QUALITY

ROOFING

SOLUTION

WHAT WE DO

Sika provides a full range of flat roofing systems. Thermoplastic and bituminous membranes as well as liquid-applied membranes including insulation and accessories like Solar fixations. Sika Roofing solutions are reliable, sustainable, and long-lasting, recognized as global proven prime systems for new buildings and roof renovation. In 2022, Sika celebrated 60 years of roofing excellence with Sika Sarnafil® single-ply membranes. For highest building operation safety Sika offers efficient leak monitoring and detection systems.

MAIN APPLICATION AREAS

Exposed Roofs

Ballasted Roofs

Green Roof Systems

Utility Roof Decks

Cool Roofs with Highly Reflective Membranes or Coatings

Solar Roofs

Special Roof Design

EXCELLENT FLOORING SOLUTION

WHAT WE DO

Sika provides liquid applied floor finishes and cementitious underlayments to protect, prepare, upgrade and finalize floor surfaces. Our full range of seamless flooring solutions meet the highest requirements for both industrial and decorative floor systems. We use a wide range of technologies such as cement, calcium sulphate, epoxy, polyurethane, hybrid versions among others.

MAIN APPLICATION AREAS

- Industrial Floors
- Car Park Floors
- Concrete Flooring
- Cleanroom Floors
- Electrostatic Discharge Protection
- Floor Joints
- Special Coatings for Walls and Ceilings
- Commercial, Institutional and Residential Floors

MAXIMUM DURABILITY

SEALING & BONDING

SOLUTION

WHAT WE DO

Sika develops and markets a complete range of admixtures and additives for use in concrete and cement production. These products enhance the workability, strength and durability of concrete and enable the use of blended cement. Sika's admixtures and additives enable the concrete and cement industry to meet their sustainability targets. Sika's digital tools support the design of resource efficient and cost optimized concrete and consistently high concrete quality.

MAIN APPLICATION AREAS

- Ready Mix Concrete Companies
- Precast Element Manufacturers
- Infrastructure Projects
- Mining Industry
- Cement Industry
- 3D Concrete Printing Companies
- Dry Mortar Plants
- Gypsum Board Production
- Concrete Recycling Plants

HIGH RELIABILITY REFURBISHMENT SOLUTION

WHAT WE DO

This segment includes repair, strengthening, and protective solutions for concrete structures, such as repair mortars, shrinkage compensated high-strength grouts, anchoring adhesives, protective coatings, corrosion control, and structural strengthening systems. Especially in developed markets, many structures are several decades old and need to be refurbished. Sika engineered refurbishment systems enable the life extension of structures, which is often a more sustainable path than demolition and building from scratch.

MAIN APPLICATION AREAS

- Grouting
- Concrete Repair
- Concrete Protection
- Hydrophobic Impregnation
- Structural Bonding
- Structural Strengthening
- Anchoring

AESTHETIC BEAUTY

BUILDING FINISHING

SOLUTION

WHAT WE DO

Building Finishing encompasses ceramic tiles and natural stones installation, traditional and insulated facade finishing and protection, as well as interior wall finishing for residential housing and commercial buildings. Sika is a global leader in these solutions and provides the most comprehensive sets of solutions with tile adhesives and grouts, systems for under-tile waterproofing and sound reduction, as well as renders and decorative finishes, and Facade Thermal Insulation Systems.

MAIN APPLICATION AREAS

Tile Adhesives and Tile Grouts

Under-tile Waterproofing Solutions

Facade Preparation & Decorative Finishing

Facade Cleaning and Protection

Facade Thermal Insulation Systems

Heritage Facade Renovation Products

Interior Wall Leveling & Finishing

INNOVATIVE INDUSTRY SOLUTION

WHAT WE DO

Sika products are essential for automobile and commercial vehicle assembly (structural bonding, direct glazing, acoustic systems, reinforcing systems), automotive aftermarket (auto glass replacement, car body repair), marine vessels, industrial lamination, renewable energies (solar and wind), home appliance, and facade engineering (structural glazing, sealing of insulating glass units).

MAIN APPLICATION AREAS

- Automotive OEM and OES
- Automotive Aftermarket
- Commercial Vehicle Industry
- Facade and Fenestration Manufacture
- Modular Building
- Appliances and Manufacturing
- Industrial Lamination
- Renewable Energy Industry
- Tooling and Composites
- Marine Industry
- Battery Systems and Electronic Components

THE RIGHT PARTNER

Sika is Everywhere. Sika's purpose is to anticipate and meet future challenges by providing reliable, innovative, sustainable, and long-lasting solutions in the construction, building, and manufacturing industries. The company provides a seal of quality on which its employees, customers, and stakeholders can rely on - Building Trust Every Day.

FOR SIKA GCC INFORMATION:

gcc.sika.com

WHO WE ARE

Sika is a globally active specialty chemicals company. Sika supplies the building and construction industry as well as manufacturing industries (automotive, bus, truck, rail, solar and wind power plants, façades).

Sika is a leader in processing materials used in sealing, bonding, damping, reinforcing and protecting load bearing structures. Sika's product lines feature high quality concrete admixtures, specialty mortars, sealants and adhesives, damping and reinforcing materials, structural strengthening systems, industrial flooring as well as roofing and waterproofing systems.
